

**✓ Jerel Johnson: ~~TF Replacement: Records Request Tab~~**

As a Pathfinder, I can click on the Provider Requests tab and view all current and previous provider requests, so that I can keep my medical records up to date.

- ☐ ~~I can see a list of all provider requests that I have made.~~
- ☐ ~~I can see records requests for which I have not been sent an authorization form.~~
- ☐ ~~I can see records requests for which I need to sign an authorization form.~~
- ☐ ~~I can see records requests that in progress, and what their status currently is.~~
- ☐ ~~I can see records requests that are completed, and what the outcome of the request was.~~
