☑ ~~User Admin Exports Records Request List~~

As a User Admin, I can Export a list of recent Records Requests in the system, so that I can provide this list to our records requesters.

Wireframe: https://live.uxpin.com/a238c159251ee591036a0ad962f1527049cdeefa#/pages/30260209

☑ ~~The List is a .csv~~

☑ ~~The title of this document is "Requests_<currentDate>.csv" (currentDate format is "mm-dd-yyyy")~~

☑ ~~The List contains all Requests that have had a status change in the last 3 days AND have a status that matches any of the following [Ready for GMS,Received,Received - no further action,N/A Requires payment,N/A New Form,N/A No patient,N/A Not Extractable,N/A Hand signature,N/A Non-responsive,N/A Other,Closed N/A Hand signature,Closed N/A New form,N/A No radiology,Received - Uploaded Clear]~~

☑ ~~When I click on the Export button, the .csv is created and put onto the sftp.~~

☑ ~~I can see the 5 most recent Requests lists that I have exported.~~

~~The columns of the .csv are:~~

☑ ~~Patient ID~~

☑ ~~Request ID~~

☑ ~~NPI Number~~

☑ ~~NPI Name~~

☑ ~~NPI Zip Code~~

☑ ~~Type~~

☑ ~~Stage~~

☑ ~~Close Date~~

☑ ~~Physician Contact~~

☑ ~~Medical Phone~~

☑ ~~Medical Fax~~

☑ ~~Notes~~
